HANGED TO A TREE

Rob Storms Jail and Take Out Negro Who Murdered White Man and Lynches Him.

Coldwater, Miss., Nov. 15.—One hundred young men, who had gathered to attend the funeral of their friend, Boaz Vasey, were suddenly converted into a mob this afternoon by the news that the officers had arrested one of the negroes who had assassinated Mr. Vasey, and a gang from Arkansas they overpowered the officers, took their prisoner from them, and carrying him to the scene of the murder hung him to a tree. In vain did some of the most prominent men in the county plead with them to let the law take its course. They heeded not the pleadings but avenged themselves upon Nick Vasey, who, with his cousin, Steve Vasey, stood charged with the murder. One of them shot him twice as his body dangled from the limb. At nightfall the members of the negro family cut the corpse down and gave it burial.

DEAD GIRL IS FOUND

Near Forms of Two Young Men in Boat House in Atlantic City—Died From Asphyxiation.

Atlantic City, N. J., Nov. 15.—With the gas pouring from an unlighted jet Ella Clark, a pretty eighteen-year-old girl, was found dead in a boat house at Gantner's Bar, near here, today, and near her body were found the unconscious forms of two young men, sons of well known residents of this city. The companions of the girl, Arthur Penna, aged 18, and Walter Reynolds, also 18, are in the City Hospital in a critical condition.

Three glasses and a bottle which had contained whisky, were found in the room where the trio were discovered.

Captain of Detectives Whalen believes the girl was enticed into the boat house and died with liquor. It was believed that the gas had accidentally turned on after one of the youths had extinguished the light. Miss Clark's father is a well-to-do resident of this place.

You have a number of friends who take The Bulletin that would be glad to pay a year in advance if you would ask them to give you the votes and a half dozen subscribers will place your baby's name at the top of the list. Get in line for the final dash. Half the people who take The Bulletin will subscribe before the contest closes and some baby will get their votes. Your baby will get a good share of them if you show your friends you are in the race to win. The way you hustle is the criterion by which your friends will decide to support you or not during the closing hours of the contest.

The voting was light yesterday but the interest in the contest is intense as votes are being mailed from all over the state. Hardly a mail but what contains from ten to fifty votes for some baby in the contest and a number of subscriptions have been sent in by mail with instructions to

TICKET PICKED OUT BY M'GRAW

HARMON OF OHIO AND JOHNSON OF MINNESOTA FOR PRESIDENT AND VICE PRESIDENT SAYS COMMITTEEMAN.

Grafton, W. Va., Nov. 15.—Harmon and Johnson. This is the Democratic national ticket for 1912 as picked by Colonel John T. McGraw, Democratic national committeeman from West Virginia.

He declared it was the time he had not yet arrived when a presidential candidate from the far side of the Mississippi river can make a successful race.

"Who are the men worth considering in our list of possible leaders for 1912? Two figures have emerged triumphant from the Democratic wreck, Judson Harmon, of Ohio, and John Johnson, of Minnesota. Both are of White House calibre; both have carried their own states under the most extraordinary conditions and can do it again. My ticket therefore for the next quadrennial struggle is Harmon and Johnson and putting the gallant Minnesota age and I do not mean and discount of his qualifications for the high office. It is merely a matter of geography and availability."

Harmon is on the right side of the Mississippi river, while the other is not, but at that the Minnesota man is too generous and broad-minded to afford to let any personal pride in the way of a great party victory, and I am sure he will consent to go on the ticket with that splendid statesman whom the people of Ohio have so highly honored."

THE THIEF WAS COLD

Man Whose Overcoat Was Stolen Gave Him a Meal and a Week's Lodging.

Detroit, Mich., Nov. 15.—Herman Pink, a hotel proprietor and something of a philanthropist in a small way, released his overcoat from a chair in his hotel today, where he had laid it for a moment, and glancing out of a window saw a "nervous looking individual" trying to steal it.

He stepped out, caught a policeman and the trio went to a station. There the cab said he stole because he was cold, hungry and homeless, whereupon Pink refused to prosecute, brought the man a square meal and paid for a week's lodging for him.

COUNTR CLUB TALK

(For The Bulletin by X. Ray Faber.)

Capt. Evans. Have you noticed, Mr. Fish, that our greatest attempt for some reason not easily explained, do not succeed as candidates for the presidency, although it is the final object of their ambition? Since the Webster, Clay, Douglas, Greeley, Chase, Seward, Blaine and others, the greatest statesmen in point of intellectual ability of their respective periods, who failed to get the presidential chair, although all of them strove for it, Bryan is another added to these. Such men seem to be thought of as being best fitted for the senate, and probably this is the correct view. They are the creators of the measures and policies that rule the government.

Mr. Fish. Yes, in common with many others in the present and past, I have noticed the fact to which you call my attention. The same fact as related to statesmen and governments of the old world, is seen in history as far back as the most ancient time of which there is record. Julius Caesar towered far above his fellow senators in point of ability; they were afraid as well as jealous of him; they viewed him as a dangerous man; they really thought he intended to subvert the government and make himself emperor. Perhaps he did, but it so the fact has not been proven. But as the Roman statesmen created fear of Caesar among the people, so have American statesmen and politicians in modern times created the prejudice born of fear among the people against the greatest of them.

BURNED IN EFFIGY

Is Assistant Adjutant General of Tennessee—Military Officers Demand Regular Army Pay.

Nashville, Tenn., Nov. 15.—After the burning in effigy late last night at Camp Nemo, of Colonel Harvey Alexander, assistant adjutant general of Tennessee, a number of officers of the First Tennessee regiment, on duty in the Itasca Lake region during the recent night rider troubles, declare they will resign if they do not receive regular army pay instead of state pay for the services rendered. The prediction that the regiment will be disbanded is already heard.

No Sure Sign.

The will of a wealthy New York man was found when read to contain only 30 words. That is no sure sign, however, that some of his disgruntled kin will not try to make it look like 20 cents.

Radish of Unknown Derivation. The radish, greatly modified by cultivation, probably had its origin in the temperate zone, but from what wild species it is derived is not exactly known.

ALL DISTRESS FROM INDIGESTION OR AN UPSET STOMACH VANISHES

Does it ever occur to you how busy that little stomach of yours is? It actually only holds three pints, though in one year you force it to take in 2,500 pounds of material, digest it and prepare it for assimilation to the blood. Do you wonder at the number of cases of indigestion and stomach trouble? You crowd it with steaks and pastry, irritate its juices with spices and acids and expect this inefficient engine to do its work.

Is there any wonder that your food passes undigested, or lays like a lump of lead in the stomach? That every thing you eat turns to acid, stomach gas and stomach poison, poisoning the intestines and digestive canals, causing Biliousness, Headaches, Dizziness and Indigestion, Heartburn, Nervousness, Breaths, constipation and other more dangerous symptoms?

Call your disease what you will—Indigestion, Gastritis, Nervousness, Dyspepsia, Catarrh of Stomach, etc.—you know the real name, the real disease is fermentation of the food you eat—a sour Stomach, which belches gas and eructs undigested food or causes a feeling of nausea and misery. All these miseries vanish promptly when you stop this food fermentation. Take fifty cents to your Pharmacist for a case of Pope's Dyspepsia. Eat a triangle, and five minutes later your Stomach will do what a healthy Stomach should—that it, turn every bit of food into healthy nourishment and without you realizing that you have a Stomach. One triangle will digest all the food you eat without the aid of the stomach, because it contains just the elements found in good, strong, healthy stomach.
